#### LEGAL DISCLAIMER

This document has been prepared by Corporación Acciona Energías Renovables, S.A. ("ACCIONA Energía" or the "Company" and, together with its subsidiaries, the "ACCIONA Energía Group") exclusively for use in the presentation of financial results. Accordingly, it may not be disclosed or made public by any person or entity for any other purpose without the prior written consent of the Company. ACCIONA Energía will not be liable for the contents of this document if used for any purpose other than that outlined above.

The information, opinions and statements contained herein do not purport to be comprehensive and have not been verified or audited by independent third parties. In some cases they are based on management information and estimates and are subject to change and, therefore, ACCIONA Energía offers no express or implied warranty as to the impartiality, accuracy, completeness or correctness of the information provided or the opinions expressed and statements made herein. Certain financial and statistical information contained in this document may be subject to rounding adjustments.

Neither the Company and its subsidiaries, nor any entity within the ACCIONA Energía Group and its subsidiaries, nor any of its advisors or representatives will accept any liability of any kind, whether for negligence or any other reason, for any damages or loss arising from any use of this document or its contents.

The information contained in this document on the price at which securities issued by ACCIONA Energía have been bought or sold, or on the performance of those securities, may not and should not be used to predict the future performance of securities issued by ACCIONA Energía.

Neither this document nor any part of the same constitutes or may in any way be relied upon as legal, tax, investment, accounting, regulatory or any other type of advice regarding, about or in relation to the Company, nor may it be used or relied upon in connection with or as the basis for any contract, agreement or investment decision, or included or incorporated into such.

#### IMPORTANT INFORMATION

This document does not constitute an offer or invitation to purchase or subscribe shares, in accordance with the provisions of the Spanish Securities Market Law (Law 24/1988, of July 28, as amended and restated from time to time), Royal Decree-Law 5/2005, of March 11, and/or Royal Decree 1310/2005, of November 4, and its implementing regulations.

Likewise, this document does not constitute an offer of any kind for the purchase, sale or exchange of securities, a request for any offer to purchase, sell or exchange securities, or a solicitation for any vote or waiver in any jurisdiction.

In particular, this document does not constitute an offer to purchase, sell or exchange securities or a solicitation of any offer to purchase, sell or exchange securities.

Neither this document nor any part or copy of it may be taken or transmitted into the United States or published, released, disclosed or distributed, directly or indirectly, in the United States, as that term is defined in the United States Securities Act of 1933, as amended (the "US Securities Act"). Neither this document nor any part or copy of it may be published, released, distributed or disclosed in Australia, Canada, South Africa or Japan. Any failure to comply with this restriction may constitute a violation of US, Australian, Canadian, South African or Japanese securities laws.

This document and the information contained herein do not constitute a solicitation of an offer to buy securities or an offer to sell securities in the United States (within the meaning of Regulation S of the US Securities Act). The ordinary shares of ACCIONA Energía have not been, and will not be, registered under the US Securities Act and may not be offered or sold in the United States absent registration under the Securities Act except pursuant to an exemption from, or in the case of a transaction not subject to, the registration requirements of the Securities Act and in compliance with the relevant state securities laws. There will be no public offering of ordinary shares in the United States.

#### FORWARD-LOOKING STATEMENTS

This document contains forward-looking information and statements about ACCIONA Energía, including financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future operations, capital expenditures, synergies, products and services, and statements regarding future performance. Forward-looking statements are statements that are not historical facts and are generally identified by the words "expects", "anticipates", "believes", "intends", "estimates", "pipeline" and similar expressions.

Although ACCIONA Energía understands that the expectations reflected in such forward-looking statements are reasonable, investors and holders of ACCIONA Energía shares are cautioned that forward-looking information and statements are subject to certain risks and uncertainties, many of which are difficult to predict and are generally

beyond the control of ACCIONA Energía, which could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include those discussed in the documents filed by ACCIONA Energía with the Comisión Nacional del Mercado de Valores, which are publicly available for consultation.

Forward-looking statements are not guarantees of future performance. They have not been reviewed by ACCIONA's nor by ACCIONA Energía's auditors. You are cautioned not to place undue reliance on the forward-looking statements, which contain information only up to the date on which they were made. All subsequent oral or written forward-looking statements attributable to ACCIONA, ACCIONA Energía or any of its members, directors, officers, employees or any persons acting on its behalf are expressly qualified in their entirety by the cautionary statement above. All forward-looking statements included herein are based on information available to ACCIONA Energía at the date of this document. Except as required by applicable law, ACCIONA Energía does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The Results Report contains certain non-IFRS financial measures of the Company derived from (or based on) its accounting records, which it regards as alternative performance measures (APMs) for the purposes of Commission Delegated Regulation (EU) 2019/979 of 14 March 2019 and as defined in the European Securities and Market Authority (ESMA) Guidelines on Alternative Performance Measures dated 5 October 2015. The Results Report includes a list and definitions of the Alternative Performance Measures (APMs). Other companies may calculate such financial information differently or may use such measures for different purposes than the Company, limiting the usefulness of such measures as comparative measures. These measures should not be treated as an alternative to measures calculated in accordance with IFRS, have limited use as analytical tools, should not be considered in isolation and may not be indicative of the Company's results of operations. Users of this document should not place undue reliance on this information. The financial information included herein has not been reviewed for accuracy or completeness and, as such, should not be relied upon.

The definition and classification of the ACCIONA Energía pipeline, which comprises both secured and under-construction projects, highly visible projects and advanced development projects, as well as other additional opportunities, may not necessarily be the same as that used by other companies engaged in similar businesses. Accordingly, the expected capacity of ACCIONA Energía's pipeline may not be comparable to the expected capacity of the pipeline reported by other companies. Given its dynamic nature, moreover, ACCIONA Energía's pipeline is subject to change without notice and certain projects classified under a given pipeline category as identified above could be reclassified to another pipeline category or could cease to be pursued in the event that unexpected events, which may be beyond ACCIONA Energía's control, should occur.

### EXECUTIVE SUMMARY

### PERIOD HIGHLIGHTS

- In 2023, the Company delivered on its strategic objective of stepping up its growth to another level, with the installation of 1.7 GW of new capacity, a historic high. Consolidated production grew 9.0% vs 2022. The operational environment improved substantially in comparison with last year due to the normalization of global supply chains.
- ACCIONA Energía's 2023 results reflect the progressive normalization of energy prices, especially in Spain, which are still higher than pre-energy crisis expectation. The impact of the downward trend in prices was to some extent mitigated by hedging, production from newly commissioned assets and growth in the results reported by the International division. The impact of pool prices in Spain was accentuated by the unexpected amendment in July of the remuneration parameters applicable for the 2023-25 interim regulatory period.
- ACCIONA Energía's revenues totalled €3,547 million in 2023, comprising Generation revenues of €1,851 million as well as other revenues mainly contributed by the Supply business in Spain and Portugal of €1.696 million. Annual EBITDA was €1,285 million. Net Attributable Profit amounted to €524 million.
- The Company increased its ownership of Renomar, a company with 494 MW of wind power capacity operated by ACCIONA Energía, in the second quarter of the year. The company considers that this transaction is attractive in both strategic and financial terms. The increase in the stake held in Renomar from 50% to 75% of its share capital resulted in the full consolidation of the vehicle (which was formerly accounted for using the equity method) as of 1 May 2023 and the recognition of a capital gain of €145 million in H1 results.
- The group's total installed capacity rose to 13,523 MW, representing an increase of 1.7 GW year on year.
- Consolidated installed capacity reached 12,131 MW, a net increase of 2,247 MW in the year. The installation of new assets accounted for a total of 1,701 MW, while changes in the consolidation perimeter, mainly comprising Renomar and, to a lesser extent, the full consolidation of the Moura PV plant in Portugal (46 MW) added 539 MW to consolidated capacity. The company also increased its stakes in two projects in Canada, adding 10 MW to, but also dismantled 3 MW in the USA.
- The company had 1,577 MW under construction at 31 December 2023, mainly in Australia (MacIntyre and Aldoga), North America (Forty Mile and Red-Tailed Hawk) and the Dominican Republic (Cotoperi).
- The group's total production grew by 4.1% to 24,894 GWh thanks to the contribution from new assets commissioned during the year, despite generally low resource and higher curtailments. Consolidated production grew by 9.0% to reach 21,433 GWh, representing a fall of 0.5% overall, with a marginal decline in Spain but with a small improvement in International.
- The average generation price was €86.4/MWh.

- Generation revenues in Spain totalled €1,105 million, while revenues in the International business grew to €746 million. Revenues in the Supply & Other business reached €1,696 million as consequence of lower prices in the Iberian market.
- The group's EBITDA dropped to €1,285 million in 2023. The contribution from the International division increased by 37.3% to €547 million.
- Total EBITDA in Spain stood at €739 million compared to €1,255 million in the first half of 2022. Generation EBITDA was €749 million. Consolidated production grew by 9.4% to reach 10,146 GWh thanks to the contribution from Renomar, which offset the exceptionally low level of energy resource. The total average price obtained by the company in 2023 was €108.9/MWh versus €167.6/MWh in 2022. This fall is explained mainly by the decline in the average pool price to €87.1/MWh from an average €167.5/MWh in the prior year.
  - o The average price achieved on market energy sales was €84.4/MWh.
  - Hedging increased the average achieved price by €20.9/MWh, while in 2022 it reduced the average price by €17.8/MWh.
  - o Thus, the average market sale price adjusted for hedges was €105.4/MWh (-29.3%), compared to the market benchmark of €87.1/MWh.
  - Regulated revenues contributed only marginally to the average price under the new parameters established for the 2023-25 interim regulatory period, adding just €1.1/MWh to the average price.
  - o The aggregate effect of the regulatory banding mechanism was €2.5/MWh.
- The International business grew EBITDA by 37.3% to €547 million based on rising revenues and the non-recurrence of the 2022 impairment recognized in respect of the Moura plant (accounted for using the equity method) following the end of regulated tariffs in Portugal. Consolidated production totalled 11,287 GWh, representing growth of 8.8% driven by the contribution from new assets. The average price of €66.1/MWh was in line with the prior year, as the higher prices obtained by assets situated in the Americas offset falling prices in Australia, Rest of Europe and Rest of the World.
- A capital gain of €145 million was recognized in the income statement upon the acquisition of control over Renomar. The positive results from changes in the value of certain energy supply contracts (PPAs and long-term hedges) also contributed income of €9 million compared to the loss of €64 million incurred in the previous year. These valuation changes reflect the fall in market electricity prices. Financial expenses increased by €31 million to €156 million due to growth in average net financial debt and the rising cost of borrowing. A significant part of this incremental debt is linked to investments in progress, allowing capitalization of the related financial expense.
- Net investment cash flow was €2,321 million in 2023, almost twice the total investment made in the prior year (€1,279 million), reflecting the acceleration of construction activity and new project capex, as well as the effect of the monetisation of 30% of the MacIntyre wind farm in Australia not being crystallised until 2024. Investment has largely focused on Australia (construction of the MacIntyre wind farm), the United States (construction of four solar PV plants and payment for the acquisition of the Cunningham battery energy storage project) and elsewhere in North and South America (San Juan de Marcona, Calabaza, Forty Mile). Period investment also includes the purchase of the additional stake in Renomar.
- On 27 August 2023 the company announced a share buy-back programme involving a maximum 4,938,759 shares representing around 1.5% of the Company's capital at that

- date. The maximum monetary value of the programme was €172,856,565. The programme had been 50.88% completed at 31 December 2023 with 2,513,000 shares bought back at an average price of €25.769 for a cumulative investment of c. €65 million.
- Net Financial Debt totalled €3,726 million compared to €2,021 million at 31 December 2022, reflecting the major investments made during the year and the payment of the annual dividend, which was partially financed out of operating cash flow.
- As regards key ESG indicators referring to the environment, the Company has kept 100% of CAPEX aligned with the European taxonomy of sustainable activities. Scope 1 and 2 emissions increased by 17% in 2023 due to the reclassification of fleet vehicle emissions from Scope 3 to Scope 1. Despite this increment, however, emissions remain well below the SBTi target pathway (-68%). Turning to social indicators, a fatal accident occurred at the El Cabrito wind farm (Spain) in June involving an operation and maintenance worker. Meanwhile, the number of women in management and executive positions increased to 27% of the total following the launch of new 50:50 projects to drive recruitment and the adoption of various leadership and mentoring initiatives to foster the development of female talent. In the governance area, fourteen matters were reported through the whistleblower channel and the company strengthened due diligence of business partners. As a result, 100% of strategic suppliers were audited and 172 partner due diligence processes were carried out. Finally, as regards sustainable finance, the ACCIONA Group has published its new Sustainable Financing Framework, which also applies to ACCIONA Energía.

### INCOME STATEMENT DATA

| Americas          | 708     | 642     | 66       | 10.3%   |
| Australia         | 56      | 73      | -16      | -22.5%  |
| Rest of Europe    | 279     | 364     | -85      | -23.3%  |
| Rest of the World | 78      | 75      | 3        | 4.5%    |
| International     | 1,121   | 1,153   | -31      | -2.7%   |
| TOTAL Revenues    | 3,547   | 4,351   | -803     | -18.5%  |

Revenues fell by 18.5% to €3,547 million, driven mainly by the downward trend in electricity prices, especially in Spain.

### EBITDA

| (Million Euro)          | FY 2023 | % EBITDA | FY 2022 | % EBITDA | Chg.(€m) | Chg.(%) |
|-------------------------|---------|----------|---------|----------|----------|---------|
| Spain                   | 739     | 57%      | 1,255   | 76%      | -516     | -41.1%  |
| USA                     | 115     | 9%       | 46      | 3%       | 69       | 149.7%  |
| Mexico                  | 183     | 14%      | 157     | 10%      | 26       | 16.2%   |
| Chile                   | 44      | 3%       | 12      | 1%       | 32       | 265.8%  |
| Other Americas          | 32      | 2%       | 36      | 2%       | -4       | -10.1%  |
| Americas                | 375     | 29%      | 251     | 15%      | 123      | 49.1%   |
| Australia               | 11      | 1%       | 36      | 2%       | -25      | -69.5%  |
| Rest of Europe          | 101     | 8%       | 61      | 4%       | 41       | 67.2%   |
| Rest of the World       | 60      | 5%       | 50      | 3%       | 9        | 18.6%   |
| International           | 547     | 43%      | 398     | 24%      | 148      | 37.3%   |
| TOTAL EBITDA            | 1,285   | 100%     | 1,653   | 100%     | -368     | -22.2%  |
| Margin (%)              | 36.2%   |          | 38.0%   |          |          | -1.8pp  |
| TOTAL Generation EBITDA | 1,299   |          | 1,708   |          | -409     | -23.9%  |
| Generation Margin (%)   | 70.2%   |          | 76.2%   |          |          | -6.0pp  |

EBITDA fell by 22.2%, basically due to the price factor in the Spanish Generation business, while the aggregate operating result reported by the International business increased (+37.3%).

### EBIT

EBIT amounted to €917 million compared to €1,225 million in 2022 explained mainly by the decline in EBITDA, which was partially offset by the recognition of capital gains totalling €145 million on the first consolidation of Renomar, owner 494 MW of wind assets in Spain operated by ACCIONA Energía, in which the Group increased its stake from 50% to 75%. Around 50% of the capital invested in generating assets in Ukraine was written down in the first half of 2022, resulting in a non-recurring charge to the income statement of some €35 million.

### EARNINGS BEFORE TAX EBT

EBT stood at €776 million reflecting the decline in both EBITDA and EBIT and the €31 million increase in financial expenses to a total of €156 million due to growth in average net financial debt and rising borrowing costs. Changes in the value of certain energy supply contracts (PPAs and long-term hedges) contributed €9 million to income compared to the loss of €64 million incurred in 2022, reflecting the fall in market electricity prices.

Net Attributable Profit was €524 million.

| Net investment cash flow                          | -2,321  | -1,279  | -1,042   | -81.5%  |
| Derivatives                                       | -4      | 26      | -30      | n.m     |
| Foreign Exchange                                  | 23      | -5      | 27       | n.m     |
| Dividends   | -230    | -92     | -137     | n.m     |
| Other (*)   | 228     | -63     | 292      | n.m     |
| Financing/Others cash flow                        | 17      | -134    | 151      | 112.7%  |
| Change in net debt excl. IFRS16 + Decr. / - Incr. | -1,595  | -35     | -1,559   | n.m     |

Note: Operating lease payments under IFRS16 amounted to  $\leqslant$ 36 million in FY 2023 ( $\leqslant$ 47 million in FY 2022), of which  $\leqslant$ 23 million ( $\leqslant$ 22 million in FY 2022) is reflected under "Financial Results" (interest) and  $\leqslant$ 13 million ( $\leqslant$ 25 million in FY 2022) is reflected under "Other" (principal).

It should be noted that the criteria for the presentation of cash flows relating to non-controlling interests were changed in 2023, so that these payments/proceeds of this nature are now reflected under Financing and Other Cash Flow rather than Operating Cash Flow. The inclusion of these amounts under Operating Cash Flow until 2022 was intended to provide a post-minorities measure of operating cash flow generation, constituting a measure oriented towards shareholders of ACCIONA Energía. However, it was considered more appropriate to adopt a measure of cash flow generation capacity oriented rather towards assets/operations in 2023 and subsequent years, in order to include cash outflows and inflows related with non-controlling interests in Financing and Other Cash Flow rather than Operating Cash Flow.

### ATTRIBUTABLE EQUITY

ACCIONA's attributable equity at 31 December 2023 was €5,850 million compared to €5,870 million at 31 December 2022.

### NET FINANCIAL DEBT

| (Million Euro)                      | 31-Dec 23 | % Total | 31-Dec-22 | % Total | Chg. (€m) | Chg. (%) |
|-------------------------------------|-----------|---------|-----------|---------|-----------|----------|
| Project Debt                        | 546       | 13%     | 551       | 23%     | -4        | -0.8%    |
| Corporate Debt                      | 3,557     | 87%     | 1,879     | 77%     | 1,678     | 89.3%    |
| Interest-bearing debt excl. IFRS 16 | 4,103     |         | 2,429     |         | 1,674     | 68.9%    |
| Cash + Cash equivalents             | -891      |         | -812      |         | 79        | 9.7%     |
| Net financial debt excl. IFRS16     | 3,212     |         | 1,617     |         | 1,595     | 98.6%    |
| IFRS16 adjustment                   | 514       |         | 404       |         | 110       | -27.1%   |
| Net financial debt                  | 3,726     |         | 2,021     |         | 1,704     | 84.3%    |

Net financial debt at 31 December 2023 totalled €3,726 million (including the IFRS16 lease liability of €514 million), an increase of €1,704 million compared to 31 December 2022 due to the following factors:

- Operating Cash Flow of €709 million. The €279 million negative change in working capital includes the reimbursement of regulatory revenues collected in 2022 but resettled in 2023 because the Ministerial Order establishing the 2022 remuneration parameters was not actually published until December 2022.
- Net Investment Cash Flow totalled €2,321 million, of which €2,218 million comprised ordinary gross capital expenditure. Net investment cash flow also includes net capex deferrals amounting to €103 million.
- Financing and other cash flows totalled €17 million, which included an outflow of €230 million in respect of the dividend distributed on 15 June 2023 and a positive €228 million due other items.

### CAPITAL EXPENDITURE

Revenues in Spain totalled €2,426 million in the period, mainly because of lower electricity prices in the year, which impacted both the Generation and Supply businesses.

#### EBITDA totalled €739 million.

Generation revenues in Spain amounted to €1,105 million, while EBITDA in this business stood at €749 million. Key factors affecting the EBITDA performance of the Generation business were as follows:

- Consolidated installed capacity in Spain at 31 December 2023 totalled 5,311 MW compared to 4,775 MW at 31 December 2022. This increase of 536 MW was due principally to the change in the perimeter (Renomar) and a 41 MW increment in solar PV capacity.
- Consolidated production grew by 9.4% to 10,146 GW in 2023.
- The total average price obtained by the company in 2023 was €108.9/MWh compared to €167.6/MWh in 2022, a fall explained mainly by the plunge in the average pool price to €87.1/MWh in 2023 from an average €167.5/MWh in 2022.
  - o The average price obtained on market energy sales was €84.4/MWh, which is below the pool price.
  - Hedging increased the average price obtained by €20.9/MWh, while in 2022 it reduced the average price by €17.8/MWh.
  - o Thus, the average market sale price adjusted for hedges was €105.4/MWh compared to the average wholesale market price of €87.1/MWh in the year.
  - o Regulated revenues contributed only marginally to the average price under the new parameters established for the 2023-25 interim regulatory period, adding just €1.1/MWh to the average price.
  - o The aggregate effect of the regulatory banding mechanism was €2.5/MWh.

Revenues in the International perimeter reached €1,121 million.

EBITDA for the International business as a whole rose to €547 million. Generation EBITDA reached €550 million:

- Consolidated installed capacity in the International business at 31 December 2023 was 6,820 MW, representing growth of 1,711 MW over the year, chiefly comprising 1,049 MW in the USA (Fort Bend, High Point, Union and Red-Tailed Hawk), 473 MW in Australia (MacIntyre) and 136 MW in Peru (San Juan de Marcona).
- Total consolidated production grew by 8.8% to 11.287 GWh driven by the output of new generating assets.

- The average international price was stable at €66.1/MWh, though it rose in Chile, Mexico and the USA and fell in Australia, Rest of Europe and Rest of World.
- The International business grew EBITDA to €547 million based on rising revenues and the non-recurrence of the 2022 impairment recognized in respect of the Moura plant (accounted for using the equity method) following the end of regulated tariffs in Portugal.

| Communications received through Ethics Channel (no.)                         | 14      | 15      | -6.7%   |
| Due diligence of third parties (no.)   | 172     | 104     | 65.4%   |
| Sustainable financing (%) (*)  | 98%     | 64%     | +34.0pp |
| Controversies (no.)  | 0       | 0       | -       |

#### Notes:

Disabled employees in Spain (%): direct employees

Audited suppliers (no.): suppliers audited/suppliers subject to audit (i.e. "strategic" suppliers). The figure depends on the volume of contracting over the year as a whole and is therefore only comparable at the year end.

Sustainable financing (%): Sustainable financing/total debt for the period

### **Environmental indicators**

### Climate:

Scope 1 and 2 emissions increased by 17% due to a change in the accounting criteria applicable to emissions produced by leased fleet vehicles (formerly Scope 3 and now classified as Scope 1). However, this effect was partially offset by the 67% cut in Scope 2 emissions achieved thanks to increased use of renewable energy. Emissions remain well below the level of the SBTi pathway (-68%).

### Alignment with EU low-carbon taxonomy (%)

| Climate change mitigation | Alignment | Eligibility |
|---------------------------|-----------|-------------|
| CAPEX                     | 99.99%    | 97.62%      |
| OPEX                      | 98.24%    | 92.67%      |
| REVENUES                  | 97.24%    | 57.49%      |

Percentage alignment calculated based on percentage eligibility

Ineligible revenues comprise the third-party energy marketing and supply business. This is because marketing activities are not eligible under the European taxonomy, even though the energy marketed is 100% renewable.

#### Circularity:

The company does not take to landfill wind turbine blades and it is currently engaged in a range of initiatives to improve recyclability, including the use of turbine blades to build PV module mountings at the Extremadura I plant and the *El Ganso x ACCIONA* project, which involved the use of recycled blade materials to manufacture sport shoes.

ACCIONA Energía has also launched the *Waste2Fiber* initiative in partnership with RenerCycle, as part of its commitment to the development of circular economy solutions for the renewables industry. This project will eventually result in the construction of a plant capable of recycling 6,000 tons of blade composites per year.

Waste recycling dipped to 97% in 2023 due to maintenance work undertaken at biomass plants, as boiler-cleaning residues cannot be reclaimed for further use.

### **Biodiversity**

Studies based on the LEAP approach have been carried out to locate, assess, quantify and disclose nature-related dependencies, impacts, risks and opportunities in line with the recommendations of the *Task Force on Nature-Related Financial Disclosure* (TNFD).

A total of 182 environmental management plans have been drawn up and implemented at new plants under construction and operational facilities. As part of its voluntary planting programme, ACCIONA Energía has contributed to the *No Deforestation* goal by planting 118,738 trees, making a total of 316,819 in the three years since the initiative was launched.

The company has also launched initiatives within the framework of the *No Net Loss* goal, including relocation and protection of 12,000 specimens of the vulnerable species *macrozamia* conferta found at the site of the MacIntyre wind farm. Meanwhile, other initiatives were adopted to comply with the *Net Gain* objective like the *Red Kite Recovery Plan*, which seeks to protect the population of this endangered species at the Cazorla, Segura and Las Villas nature reserve in Spain.

#### Social indicators

ACCIONA Energía's average headcount increased by 32% due both to the company's own organic growth and to the integration of distributed generation and energy efficiency company Solideo. The increase in the number of women in management and executive posts was driven by a combination of new hirings and internal promotion under initiatives to recruit and develop female talent, such as the *Sustainable 50:50* programmes. A new project of this kind, *Tech Hub New Generation*, was launched in 2023. Its goal is to strengthen the Operation and Maintenance

team in the United States through support for the local university ecosystem in Mexico and initiatives to foster the professional development of the country's young people. Specifically, the project involves the selection of 12 candidates (6 men and 6 women) to work in maintenance operations with a view to eventual internal transfer to the United States upon the completion of their training.

In the health and safety area, a fatal accident occurred at the El Cabrito wind farm (Spain) involving an operation and maintenance worker.

A total of 133 social impact management projects were undertaken, 17% more than in 2022, resulting in social investments totalling more than €4 million related with some 200 positive community impact initiatives benefiting over 290,000 people.

#### Governance indicators

The Audit and Sustainability Committee approved a new Ethics Channel Policy in June. The policy is aligned with the requirements of Spanish Law 2/2023 on the protection of whistleblowers and the fight against corruption. Third-party due diligence processes affecting commercial and business partners have been increased by 65% compared to 2022 following the rollout of the company's Criminal Law Compliance and Anti-Bribery management system, which has significantly enhanced controls over third parties.

The company has audited 100% of strategic suppliers and twelve tier 2 suppliers, meaning those presenting a high level of risk given the volume of contracting, the countries in which they operate and/or the goods and services they provide. GoSupply, the new supply chain management platform has now been rolled out in all countries, and minimum scores on ESG and Compliance questionnaires have been established for suppliers with a contract volume of more than €400,000 per year.

The weight of sustainability objectives within variable remuneration has been raised from 10% to 12.5%, meeting the target set in the Sustainability Master Plan two years early.

Women continue to represent 45% of Board members, which is above the recommendation established in the Spanish Code of Good Governance for Listed Companies.

### **ESG** ratings

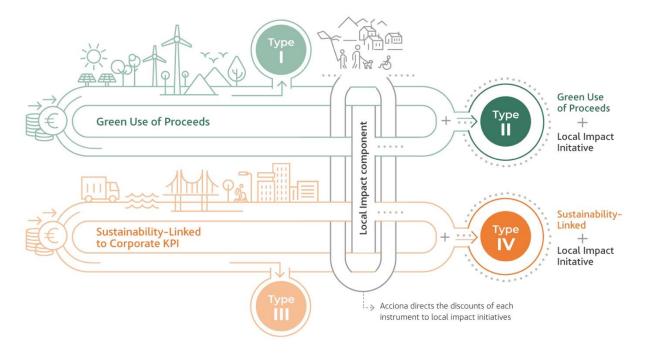

The company has maintained its leadership position with respect to the principal ESG ratings.

|               |              |                  | ACCIONA ENERG  | θÍΑ   |

### IMPACT FINANCE

A new Sustainable Impact Financing Framework was prepared in 2023, which includes green finance and sustainability-linked instruments and introduces a Local Impact feature that creates a "Dual Impact" structure when combined with sustainable and green instruments.

The framework is based on key sustainable finance standards, such as the Green Bond Principles (GBP) issued by the International Capital Markets Association (ICMA) and the Green Lending Principles (GLP) administered by the Loan Market Association (LMA). DNV has reviewed and issued a favourable opinion on the new framework's compliance with these standards.

The Framework, which applies to both ACCIONA Energía and the ACCIONA Group, replaces the 2021 ACCIONA Energía Sustainability-Linked Framework.

Note: The amount of transactions in currencies other than EUR is stated at the exchange rates ruling at 30 June 2023. This includes the principal of bond issues and the initial amount of loans and credit facilities.

Sustainable finance instruments account for 98% of ACCIONA Energía's corporate debt outstanding (issued by ACCIONA Financiación de Filiales and its Australian financing subsidiary).

## CNMV COMMUNICATIONS, DIVIDEND AND SHARE DATA

### MATERIAL EVENTS

- 25 January 2023: ACCIONA Energía submits details of transactions carried out under the Liquidity Agreement between 24/10/2022 and 24/01/2023, inclusive.
  - The transactions reported refer to the fifth quarter of the aforesaid agreement (from 24 October 2022 to 24 January 2023, inclusive).
- 6 March 2023: ACCIONA Energía reports the temporary suspension of the Liquidity Agreement.
  - ACCIONA Energía reports temporary suspension of the Liquidity Agreement made with Bestinver, S.V., S.A. on 19 October 2021 (OIR number 12246) enabling the en bloc purchase of up to 100,000 treasury shares, representing 0.03% of the Company's share capital, in order to discharge its obligations under performance share and other variable remuneration plans approved by ACCIONA Energía for the benefit of the CEO and certain other employees and officers.
- 6 March 2023: ACCIONA Energía reports the resumption of the Liquidity Agreement after completion of the en bloc acquisition of treasury shares.
  - ACCIONA Energía reports that it has purchased 100,000 of its own shares, representing 0.03% of the Company's issued capital, on today's date as direct treasury shares following the execution of a block transaction at an average unit price of €33.80/share. These treasury shares have been acquired to discharge the obligations arising under the performance share and other variable remuneration plans approved by the Company for the benefit of the CEO and certain other employees and officers of ACCIONA Energía. Details of the performance share plans and other variable compensation plans (OIR 14256) have been duly reported to the market and are disclosed in the IPO Prospectus, which is publicly available on the Company's website
  - In light of the foregoing, and as a follow up to the Material Information Notice published on today's date (OIR 21184), ACCIONA Energía hereby reports the resumption of transactions under the Liquidity Agreement

entered into with Bestinver, S.V., S.A. on 19 October 2021 (OIR number 12246).

- 7 March 2023: ACCIONA Energía reports the identities and responsibilities of the members of its senior management team.
- ACCIONA Energía hereby reports the identities of persons discharging senior management responsibilities pursuant to article 3.1(25)(b) of Regulation (EU) No 596/2014 on market abuse: Ms Arantza Ezpeleta Puras, Mr Rafael Esteban Fernández de Córdoba, Mr Joaquín Javier Ancín Viguristi, Mr Santiago Gómez Ramos, Mr Juan Otazu Aguerri, Mr José Entrecanales Carrión, Mr Jorge Paso Cañabate, Mr Raimundo Fernández-Cuesta, Ms Ana Benita Aramendia, Ms Yolanda Herrán Azanza, Ms Belén Linares Corell, Mr Joaquín Francisco Castillo García, Mr Brett Wickham, Mr Miguel Ortiz de Latierro Imaz, Mr Javier Montes Jiménez, Mr Antonio Ferreiro Viña, Ms Elvira López Prados, Mr Klaus Falgiani and Mr David Liste Alba.
- 26 April 2023: ACCIONA Energía submits details of transactions carried out under the Liquidity Agreement between 25/01/2023 and 25/04/2023, inclusive.
  - The transactions reported refer to the sixth quarter of the aforesaid agreement (from 25 January 2023 to 25 April 2023, inclusive).
- 28 April 2023: ACCIONA Energía publishes the call for the Annual General Meeting and the proposed resolutions to be put to the Shareholders.
  - The Board of Directors of ACCIONA Energía has convened the Annual General Meeting of the Shareholders to be held on 1 June 2023 at 12.00 noon at first call, or on 2 June 2023 at the same time at second call (although it is likely that the meeting will be held at the first call).
  - Also attached hereto are the proposals that the Board of Directors of ACCIONA Energía will put to the Annual General Meeting for approval by the Shareholders in connection with all of the items on the agenda, which will be made available to the shareholders, together with the other documentation related with the General Meeting, at the Company's head office and online on the corporate website, www.acciona-energia.com, under the terms set forth in the call.
- 1 June 2023: The Company reports the resolutions adopted and votes cast by the Shareholders at the General Meeting held on 1 June 2023.
  - The Shareholders at their Annual General Meeting held at first call and attended by 97.10% of the Company's share capital (including treasury shares), have approved all of the items on the agenda put to the vote with the votes in favour of at least 85.81% of the share capital present at the Meeting under the terms set forth in the documentation made

available to shareholders and as communicated to the CNMV on 28 April 2023 (OIR number 22267).

1 June 2023: ACCIONA Energía reports the membership of the Board of Directors and Board Committees. The members of the Board of Directors are: Chairman: Mr José Manuel Entrecanales Domecq, proprietary director. CEO: Mr Rafael Mateo Alcalá, executive director. Member: Mr Juan Ignacio Entrecanales Franco, proprietary director. Member: Ms Karen Christiana Figueres Olsen, proprietary director. Member: Ms Sonia Dulá, proprietary director. Member: Mr Rosauro Varo Rodríguez, independent director. Member: Mr Juan Luis López Cardenete, independent director. Member: Ms María Salgado Madriñán, independent director. Member: Mr Alejandro Mariano Werner Wainfeld, independent director. Member: Ms María Fanjul Suárez, independent director. Member: Ms Teresa Quirós Álvarez, independent director.

At the Board meeting held after the Annual General Meeting, the Directors also adopted the following resolutions:

- To change the membership of the Audit and Sustainability Committee, as follows: Ms María Fanjul Suárez (Chair), Mr Alejandro Werner (Member), Ms Teresa Quirós Álvarez (Member) and Ms Sonia Dulá (Member).
- To change the membership of the Appointments and Remuneration Committee, as follows: Mr Juan Luis López Cardenete (Chair), Ms Karen Christiana Figueres (Member), Mr Rosauro Varo Rodríguez (Member) and Ms María Salgado Madriñán (Vocal)
- 7 June 2023: ACCIONA Energía reports the dates and exact amount of the dividend distribution approved by the Shareholders at the Annual General Meeting.
  - The Company reports that the Shareholders at their Annual General Meeting held on 1 June 2022 approved payment of the dividend for 2022 on 15 June 2023 via the member entities of Sociedad de Gestión de los Sistemas de Registro Compensación y Liquidación de Valores. The relevant dates for the dividend distribution are: Last Trading Date: 12 June 2023, ExDate: 13 June 2023, Record Date: 14 June 2023 and Payment Date: 15 June 2023.
  - The €0.70/share gross dividend approved by the Shareholders at the Annual General Meeting has been slightly increased to the amount of €0.70025581/share due to the direct treasury shares adjustment. The relevant tax withholding, if any, will be deducted from this amount.
- 20 June 2023: ACCIONA Energía reports that the Company is to change its registered address.
  - The Board of Directors of ACCIONA Energía has resolved to move the head office of Corporación Acciona Energías Renovables, S.A. from Avenida de Europa 10, Parque Empresarial La Moraleja, 28108

Alcobendas, Madrid to Avenida de la Gran Vía de Hortaleza, 1, 28033 Madrid.

- 20 June 2023: ACCIONA Energía reports that it has increased its equity interest in Energías Renovables Mediterráneas, S.A.
  - ACCIONA Energía has indirectly increased its equity interest in Energías Renovables Mediterráneas, S.A. (RENOMAR), a company holding 493.5 MW of wind capacity in operation in the Autonomous Community of Valencia, to 75% of RENOMAR's issued capital. The transaction was effected through the acquisition of 50% of the share capital of Med Wind Energy, S.L., holder of 50% of RENOMAR and owner of a portfolio of MWs under development in the Valencia Region.
- 20th June 2023: ACCIONA Energía reports the reclassification of directorships held by certain members of the Board of Directors.
  - The Board of Directors of ACCIONA Energía has resolved to reclassify Ms María Salgado Madriñán as a proprietary director and Ms Karen Christiana Figueres Olsen as an independent director. These changes do not affect the percentage of proprietary and independent directors on the Board of Directors and Board Committees resulting from the appointments made at the Annual General Meeting of the Shareholders and at the meeting of the Board of Directors of ACCIONA Energía held on 1 June 2023.
- 10 July 2023: ACCIONA Energía reports reconfirmation of the rating awarded by the agency Fitch Ratings.
  - Fitch Rating has reconfirmed the long-term rating of ACCIONA Energía and the rating of the debt instruments issued as "BBB-". The long-term rating outlook is "Stable".
- 26 July 2023: ACCIONA Energía reports confirmation of the rating awarded by the agency DBRS.
  - DBRS Ratings GmbH (DBRS Morningstar) has confirmed ACCIONA's rating at "BBB (high)", and its short-term rating at "R-2 (high)" with a "Stable" outlook in both cases.
- 27 July 2023: ACCIONA Energía submits details of transactions carried out under the Liquidity Agreement between 26/04/2023 and 26/07/2023, inclusive.
  - Details of transactions associated with the fifth quarter of the aforementioned agreement (from 20 April 2023 to 20 July 2023, inclusive).
- 5 September 2023: ACCIONA Energía reports transactions carried out under the Share Buy-Back Programme between 29 August 2023 and 4 September 2023.

- As authorized by the General Meeting, the Board of Directors has approved certain treasury share transactions to be carried out by ACCIONA Energía between 29 August and 4 September 2023 within the framework of the Share Buy-Back Programme.
- 12 September 2023: ACCIONA Energía reports transactions carried out under the Share Buy-Back Programme between 5 September 2023 and 11 September 2023.
  - As authorized by the General Meeting, the Board of Directors has approved certain treasury share transactions to be carried out by ACCIONA Energía between 5 September and 11 September 2023 within the framework of the Share Buy-Back Programme.
- 19 September 2023: ACCIONA Energía reports transactions carried out under the Share Buy-Back Programme between 12 September 2023 and 18 September 2023.
  - As authorized by the General Meeting, the Board of Directors has approved certain treasury share transactions to be carried out by ACCIONA Energía between 12 September and 18 September 2023 within the framework of the Share Buy-Back Programme.
- 26 September 2023: ACCIONA Energía reports transactions carried out under the Share Buy-Back Programme between 19 September 2023 and 25 September 2023.
  - As authorized by the General Meeting, the Board of Directors has approved certain treasury share transactions to be carried out by ACCIONA Energía between 19 September and 25 September 2023 within the framework of the Share Buy-Back Programme.
- 3 October 2023: ACCIONA Energía reports transactions carried out under Share Buy-Back Programme between 26 September 2023 and 2 October 2023.
  - As authorized by the General Meeting, the Board of Directors has approved certain treasury share transactions to be carried out by ACCIONA Energía between 26 September and 2 October 2023 within the framework of the Share Buy-Back Programme.
- 10 October 2023: ACCIONA Energía reports transactions carried out under the Share Buy-Back Programme between 3 October 2023 and 9 October 2023.
  - As authorized by the General Meeting, the Board of Directors has approved certain treasury share transactions to be carried out by ACCIONA Energía between 3 October and 9 October 2023 within the framework of the Share Buy-Back Programme.
- 17 October 2023: ACCIONA Energía reports transactions carried out under the Share Buy-Back Programme between 10 October and 16 October 2023.

### GLOSSARY OF TERMS

In accordance with Regulation 1606/2002 of the European Parliament and of the Council dated 19 July 2002, all companies governed by the laws of a Member State must prepare their consolidated accounts for each financial year starting on or after 1 January 2005 in conformity with the International Financial Reporting Standards (IFRS) adopted by the European Union if their securities are admitted listed on a regulated market.

ACCIONA Energía's consolidated financial statements are presented in accordance with the International Financial Reporting Standards (IFRS) approved by the European Parliament to date. The consolidated financial statements are based on the individual accounts of Corporación Acciona Energías Renovables, S.A. and its Group companies, and they include the necessary adjustments and reclassifications for harmonisation with EU IFRS.

ACCIONA Energía reports in accordance with International Financial Reporting Standards (IFRS). The information reported refers to the electricity business, which encompasses the promotion, construction, operation and maintenance of renewable generation facilities and sale of the energy produced. All of the power generated by ACCIONA Energía is renewable.

The Alternative Performance Measures or APMs used in this report by ACCIONA Energía are defined below:

**EBITDA** or gross operating profit: defined as earnings before interest, taxes, depreciation and amortisation, i.e., it shows the Group's operating result. It is calculated by taking the following items from the consolidated income statement: "net revenue", "other revenue", "cost of goods sold", "personnel expenses", "other operating expenses" and "equity-accounted profit (loss) from similar activities".

**Net financial debt**: shows the debt incurred by the Group, but in net terms after discounting cash and similar financial assets. The detailed reconciliation is itemised in Note 14 - Equity the consolidated report. It is calculated by taking the following consolidated balance sheet items: Current and non-current "Debt securities and other marketable securities", current and non-current "Bank borrowings", current and non-current "Lease obligations", less "Cash and cash equivalents" and "Other current financial assets".

**Net financial debt excluding IFRS 16**: defined as net financial debt less non-current and current "Lease obligations" on the balance sheet.

**Financial debt**: shows the gross debt assumed by the Group, i.e. without deducting the asset items from net financial debt.

**Financial debt excluding IFRS 16**: defined as financial debt less non-current and current "Lease obligations" in the balance sheet.

**Project debt**: refers to debt without corporate guarantees in which recourse is limited to the debtor's cash flows and assets. A reconciliation is shown in the section on Net Financial Debt.

**Corporate debt**: refers to debt with some type of corporate guarantee. It is calculated as Financial Debt minus Project Debt.

**Net financial debt/EBITDA**: shows the ratio of the Group's net debt to its equity. It is calculated as follows: "Net financial debt" (calculated as explained above) divided by "EBITDA" (explained above).

Gross ordinary investment: The amount invested during the period in acquisitions of property, plant and equipment, intangible assets, investments carried by the equity method, and financial instruments, necessary for the maintenance and growth of operations. It reflects the Group's ability to grow as a result of increasing its cash-generating capacity and earnings from investments in fixed assets for operations. A reconciliation is shown in the Cash Flow section.

**Operating cash flow**: represents the ability of assets to generate funds in terms of net financial debt. A reconciliation is shown in the Cash Flow section.

**Net cash flow from investments**: This is defined as Gross Ordinary Investment plus/minus the change in "other payables" associated with suppliers of fixed assets and other related changes that are not cash flows. A reconciliation is shown in the Cash Flow section.

Cash flows from financing and other: Generally, represents the change in Net Financial Debt (excluding IFRS 16) due to causes other than operating and investing activities. A reconciliation is shown in the Cash Flow section.

Management uses these APMs for financial, operational and planning decisions, and to evaluate the Group's performance and that of its subsidiaries.

Management considers that these APMs provide additional financial information that is useful and suitable for assessing the performance of the Group and its subsidiaries, as well as for decision-making by users of financial information.
