Dear Stephenson County families and businesses,

As someone in Stephenson County, you likely know ACCIONA's name. We've owned and operated the EcoGrove Wind Farm for a decade. This makes me particularly excited about this letter. I'm excited to share that we're growing in Stephenson County, and this time, we're going solar.

When complete, the High Point Solar Farm will add 100 MW of clean energy to our capacity in Illinois. The project will be located close to EcoGrove, which will give us our first county in United States with two renewable energy technologies. This growth will also allow us to increase our commitment to Stephenson County. Did you know that EcoGrove has awarded \$90,000 in college scholarships since 2011?

I am proud to work for ACCIONA because we design every project to have a positive impact on the community where it is located. When ACCIONA builds a project, we are in it for the long haul. We are in it to bring benefits to community, the economy and the environment. Our project company, High Point Solar LLC, is engineering the project in Stephenson County to operate for more than 30 years.

We anticipate more than 300 jobs will be created during peak construction of the project. We're hoping this will provide a boost to the local economy in the wake of the Covid-19 slowdown. We'll also continue being part of the local economy, working with local businesses to maintain our vehicles, help with landscaping, and feed our team and guests.

Our project will pay local taxes, which will go to the county to support local schools, first responders and roadways. Our projects also include a commitment to support the community, particularly in local education, environmental and wellness efforts. We hope to have a lot more to share about that in the coming months.

I thank you for taking the time to learn a bit more about us. If you have any questions, I invite you to email my team at HighPointSolar@accionacom. If you want to learn about ACCIONA, I invite you to visit our website at www.accionacom.

All my best,
